REGULATORY DIVISION

16 JUNE 2006

Refer to: P/N #2006-3W-019-C (Revised)
Litchfield Plantation Company, Inc.

The project was originally advertised on March 3, 2006, as a one time maintenance dredging of approximately 10, 500 cubic yards of material from the Litchfield Plantation Marina basin. The applicant has requested that the project be modified in order to allow for additional maintenance dredging of 4,000 cubic yards every 3 or 4 years after the initial dredging is completed. This work will be performed over a 10 year period for a maximum volume of 22,500 cubic yards of dredge material to be removed over the life of the permit. The methodology for performing the dredging, as well as the de-watering and disposal of the spoil material, remains the same.

The deadline for responding to the project revisions is

12 O'CLOCK NOON, MONDAY, 3 JULY 2006

FOR Tommy Fennel
